[SPECIAL TO THE GAZETTE.]  
Racine, Wis., Nov. 27.—It took eleven special deputies to control the crowd that swarmed into the court room this afternoon as the closing arguments were made in the trial of Dillon charged with the murder of young Best of Milwaukee who was being heard.

It is probable that Dillon will know his fate tonight as the jury will be given the case this afternoon. Should they return a sealed verdict it will not be opened until Friday when court convenes after the Thanksgiving holidays.

**Ask Life Sentence.**  
The district attorney asked that the jury be instructed to bring in a verdict of guilty and wanted a life sentence imposed. Attorney Walker for the defense laid particular stress upon the apparent contradiction of testimony on important matters.

## YOUNG CRIMINALS IN COURT BASTILE

Milwaukee Youths Stole Beer Bottles From Brewery at Deloit—Other Line City Notes.

[SPECIAL TO THE GAZETTE.]  
Deloit, Wis., Nov. 27.—James Edwards and John Leary, two Milwaukee youths, have been sent to the county jail at Janesville to serve a thirty-day sentence for stealing ninety-two beer bottles from the rear of the Scholten brewery.

The former is eighteen years of age and the latter seventeen, and when they confessed the crime to Judge Ross he was in a quandary, dreading to commit the lads to the jail like hardened lawbreakers and yet not finding the offense serious enough for a reformatory sentence. Edwards suggested that he and his partner might be benefited by a thirty-day jail confinement, and such was the sentence handed them.

**Jap to Attend College.**  
S. Ohata, a Jap just come to America, arrived in Deloit today to enter college. He is the first native of the flower kingdom to attend school here, and is one of the very few foreigners ever enrolled. To earn his way he will do housework, helping Mrs. E. B. Kilbourn, the wife of the college treasurer.

**Only a Question of Time.**  
Rev. Frank D. Sheets of Rockford declared in an address before the Deloit lodge of Good Templars last evening that it was only a question of time before the big parties, the republicans and democrats, would have prohibition planks in their platforms. The saloon institution and the saloonkeepers should be attacked, he said, the saloonmen being willing to take the blame for the monetary reward.

**Chicken Thieves Busy.**  
Chicken thieves broke into the coop of Abner Rockbridge just south of Deloit last night and carried off a number of very valuable fowls. No trace of the depreidators has been discovered.

**Women to Play Basketball.**

## HELD SESSIONS IN THE LINE CITY

Gathering of Sawbones and Pillmors in Deloit Yesterday Afternoon.

Yesterday Deloit had more professional men than ever in the city before. The joint meeting of the Rock County and the Central Medical Society called out some fifty physicians from all parts of the state, and the meeting of the Rock County Druggists was attended by druggists from nearly every town in Rock county. The three organizations joined together at a banquet held at the Hilton Hotel, and discussed business matters after the dinner was finished. Dr. W. H. Palmer read a paper and E. H. Holmstrom gave an address on the relations of the physician and pharmacist. Dr. Webster, Chicago, of the National Board of Examiners, and Dr. Harshorn of this University of Wisconsin, both gave addresses. The meeting was a very enjoyable one to all. At the meeting of the druggists after the joint session, they put themselves on record in opposition to the post-paid bill, thinking it would be of injury to the retail dealer. They also voted to meet for the annual meeting next January at the Hilton Hotel, Deloit, and have a full day's session, commencing at 10 a. m., a business meeting, banquet at noon, and a social meeting in the afternoon. A number of prizes will be given and an every druggist attending is expected to bring a lady a general good time will be had.

## USE LOCAL HORSES TO SELECT JUDGES

Students of Various Colleges Compete in Marking Horses at Gallop Trials.

Alex. Galbraith & Son have been busy the last three days exhibiting three separate breeds of their imported horses to the students of the various competing agricultural colleges of the Northwest. On Monday Prof. Linklater was here from Pullman, Wash., on Tuesday Prof. Kennedy from Ames, Iowa, and today Prof. "Fowbridge," a Wisconsin graduate but now from Columbia City, Mo., went over the stock in company with a selected band of students from their respective colleges. This annual competition to determine the best judges of the various breeds of live stock is increasing in interest and popularity and the substantial trophies to be won by the successful college make the honor of victory doubly attractive. The Galbraith stables were the first ever visited by agricultural students, some seventeen years ago, and the improvement in the stock now being done by both professors and students compared with that early date is very marked. The colleges are certainly accomplishing a grand and much needed work.

## MEMBERS OF TWO FAMOUS AMERICAN FAMILIES MARRY

Daughter Of Secretary Root And Grandson Of General Grant United In Marriage At Washington Today.

[SPECIAL TO THE GAZETTE.]  
Washington, D. C., Nov. 27.—One of the most notable and brilliant weddings that the national capital has seen in a long time took place this afternoon, when Miss Edith Root, daughter of the Secretary of State and Mrs. Root, became the bride of Lieutenant Ulysses S. Grant, third, Engineer Corps, U. S. A., son of Major Gen. Frederick D. Grant, U. S. A., and grandson of Gen. U. S. Grant. The ceremony was performed at the Root family residence in Rhode Island Avenue in the presence of a distinguished company, which included the President and Mrs. Roosevelt, members of the Cabinet, Justices of the supreme court, Senators and Representatives, and members of the foreign diplomatic corps. Among the family guests were Gen. and Mrs. Frederick D. Grant, Mrs. Nellie Grant Satterlee and Mrs. Potter Palmer.

The drawing room in which the ceremony was performed was profusely adorned with white azaleas, bride roses, and white lilies, with masses of delicate ferns and the choicest tropical greens arranged in the corners and window recesses. The officiating clergyman was the Rev. Herbert Shipman of the Church of the Heavenly Rest of New York.

The bride, who was escorted by her father, wore a superbly built gown of rich cream satin, with bodice and sleeves heavily embroidered in silk and finished in a fall of point lace. In her hand she carried a bouquet of lilies of the valley and orchids.

After the ceremony the guests adjourned to the large reception room where the bride and groom were met by a host of guests. The bridegroom received in a bow of palms and white roses. The President and Mrs. Roosevelt were the first to offer their congratulations, and was followed by a long list of cabinet officers, congressmen, members of the judiciary, diplomatic and prominent representatives of resident society.

The wedding of Miss Root and Lieut. Grant unites two of the foremost families of America, families which have been conspicuous both in peace and war and have done their full share in shaping the destiny of the republic. Edith, in a sense, the history of her family, Lieut. Grant first met his bride-to-be in the White House, while serving as military aide to President Roosevelt.

Lieut. Grant received his early education in Europe, where he attended the state military school of Austria, during the four years of his father's term as American Minister to that court. On his return to America he entered Columbia University, and was graduated in 1898. He immediately joined his father in Porto Rico for the Cuban war, where he had his first taste of warfare.

On his return to New York he entered the Military Academy at West Point, receiving his appointment from President McKinley on the strength of a letter from the young man's illustrious grandfather, General Ulysses S. Grant. General Grant, before he died, left a letter to whoever should be President when his grandson was old enough to enter West Point, asking for a presidential appointment. When the time came, Mr. McKinley was in the White House, and promptly acceded to the wish of his predecessor.

Lieut. Grant was graduated from West Point in 1902, sixth in his class, and was sent at once to the Philippines, where he remained for three years. When he returned he began a course of study at the War College here, acting at the same time as military aide to the President. Recently he was transferred to Boston for duty, and in that city he and Mrs. Grant will take up their residence after the honeymoon trip.

The bride of today is the only daughter of the Secretary of State and Mrs. Root, and, although she made her debut several years ago, she has never completely identified herself with the younger set in Washington. She is a cultivated young woman of the conservative type, and an accomplished linguist. She has been her father's frequent companion in his rides about Washington, and she is a good horsewoman, both in the saddle and as a whip. She has been known as one of the best-looking young women in Washington society. Among her most intimate friends are Miss Janet Fish and the Misses McCook of New York, who have visited her frequently in Washington.

Lieut. Grant is a brother of the Princess Catherine of Russia and a nephew of Mrs. Potter Palmer, the social dictator of Chicago.

## STINGY AWARDS BY TWO SETS OF JURORS

Henry Collins Recovers \$25 from John Wixom and Charles Pierce Gets \$1 Verdict.

In circuit court soon after ten o'clock this forenoon, the case of Henry Collins against John Wixom was given to the jury. In about an hour a verdict was rendered for the plaintiff in the sum of twenty-five dollars. The action was one for damages caused by an alleged assault and battery at the Union House in this city May 11 last. It seems that the parties got into some controversy there, and names were called and blows were struck. Mr. Collins claimed that he was seriously injured by Mr. Wixom, that he was confined to his bed for a week, finding it necessary to employ a physician; that further, for some time thereafter he was unable to do any work. He also asserted that he suffered extreme humiliation and mental anguish as the result of the assault and battery made upon him. He prayed for two thousand dollars' damages. Under the rule he cannot be awarded any more costs than damage, so that his total recovery will be fifty dollars. After the fees of his attorney and witnesses have been paid, it is unlikely that there will be much left of the compensatory damages, and no punitive damages were awarded. Atty. J. J. Cunningham appeared for the plaintiff and Atty. T. S. Nolan appeared for Mr. Wixom.

At four o'clock yesterday afternoon the twelve men trying the action of Charles Pierce vs. David Miller, brought by the plaintiff to recover for eleven days' services as attorney in an assault and battery action and a suit against a Deloit paper, returned a verdict awarding the plaintiff \$1 damages. Mr. Pierce was represented by Atty. E. H. Ryan and the defendant by Atty. Cornelius Buckley of Deloit.

The jury was excused until December 3, when the trials of the remaining jury cases—less than half a dozen in number—will be resumed. Judge Gilmer left for Jefferson, Mo., noon and will return Monday noon to take up such issues for the court as may be ready for trial.

## NOTED SHOW HORSES SOLD IN NEW YORK

Horses of Mrs. John Gerken's Stable Disposed of at Public Auction Today.

[SPECIAL TO THE GAZETTE.]  
New York, Nov. 27.—Horsemen and breeders from many parts of the country gathered at the Van Tassel & Kearney show ring today at the opening of the dispersal sale of the stable of famous show horses of Mrs. John Gerken, for several years past one of the most noted exhibitors at the annual horse show in Madison Square Garden. The present sale is absolute and will put on the market some of the best known show horses before the public. In many respects the sale is one of the most important held in years.

Among the horses to go under the hammer are the noted pair, Newboy and Shogheri, the former probably the biggest blue ribbon winner in all horse show annals. Other noted horses on the list are Brandon and Helmar, the famous pony Doncaster Model, and the other ponies Torrellight and Cocksparrow, and the saddle horses Mayo, Redwood and Surprise. These have formed the nucleus of a stable scarcely equalled in America.

The position held by Mrs. Gerken as an exhibitor is a unique one. For the past six years she has never trusted any of her employees with the training of her horses, but has directed and controlled the work herself. In spite of the fact that she has been one of the most successful exhibitors, she has never purchased a horse broken for show purposes. She has invariably selected her horses in the rough and broken and trained them herself.

As the result of a twenty-foot fall from the roof of his home at 22 Bennett street, yesterday, Nelson L. Beck, a carpenter and well-known resident of the city, is in a critical condition and may not recover from the injuries sustained. He lost his foothold while engaged in the work of placing boards on the roof-edge. Myron Griffith, who was working on the opposite side of the roof, was the first to reach Mr. Beck and found him lying on his back, unconscious. Dr. George W. P. Field was summoned and on examination found the spine had been injured in such a way that the body appeared to be paralyzed below the hips and that in addition there were serious internal injuries. Mr. Beck is fifty-two years of age.

THANKSGIVING DAY

Appropriate Services will be held at Presbyterian Church, commencing at 11 o'clock.

Everyone who has read the President's Thanksgiving proclamation and that of our own Governor Davidson will see the appropriateness of giving one hour on Thursday (tomorrow) to a thanksgiving service. In keeping with these proclamations the citizens of Janesville are asked to assemble in the Presbyterian church at 11 o'clock on Thanksgiving day and in gratitude remember the abundant harvests which bless our land, the evidences of good cheer all about us and our great indebtedness to the Almighty Father who watches over his creatures.

The President's proclamation will be read by Rev. J. H. Tippitt, D. D., of the Carroll Memorial Methodist Episcopal Church.

Prayer will be offered by Rev. R. C. Denison of the Congregational Church.

Tracks in Front of St. Paul Passenger Depot Are Being Raised to Provide Better Drainage.

Passengers boarding and getting off from trains in front of the St. Paul passenger depot will no longer have to wade through puddles of water during a heavy rain. Workmen are now busy raising the tracks and platform in front of the depot so better drainage will be afforded when a down-pour of rain is precipitated. All last summer passengers were inconvenienced by wading through standing water, during a heavy rain and many a kick was registered against the nuisance. The tracks are to be raised about three inches which will allow the water to run off and will alleviate the trouble.

## LAKE SURVEY TO PROTECT BOATS

**THE GENERAL WILLIAMS.**  
The government is awakening to the need of protecting the common carriers of the great lakes outside the harbors and has established a new department known as the lake survey.

To keep the intricate mesh of the vessel trucks of the lakes clear is part of the task of the lake survey. The lakes should be viewed as the right-of-way of a transportation system in which \$125,000,000 are invested in carriers and great sums in terminal facilities.

The way a shoal was discovered in the early days was by wrecking a vessel on it. This was very effective but there are many shoals in the lakes.

The method now used consists essentially in a boat with a quarter of a mile long suspended horizontally at a depth of 30 feet below the water's surface and towed over successive belts of lake area by a launch or steamer. It is a complete catchall and detects a shoal as readily as the old method of sounding showed up a shoal of large extent.

The survey steamer General Williams is constantly relocating wrecks which have been under the surface of the waters for years unnumbered.

**PRELATE AFTER "YELLOW PULPIT"**

**DEAN SUMNER.**  
"Vice should be segregated," he declares. "An evidence Chicago's leaven is quieter and more orderly than before in years."

Dean W. T. Sumner of Chicago describes the attempt of pastors to attract attention through violent sermons and spectacular crusades. It seems, too, destined to stick as a clever addition to American slang.

Dean Sumner knows whereof he speaks. He is pastor of the Cathedral of St. Peter and St. Paul in the heart of Chicago's notorious "Levee district" and he does not relish the attacks Chicago misleaders are making on prevailing methods of handling these fallen women. Out of these attacks has come Dean Sumner's new phrase, "the yellow pulpit."

Dean Sumner has worked long among the fallen of Chicago's toughest quarter and he says that as long as the levee exists he will consider it a privilege to work among the fallen and endeavor to lift them.

**THE FORWARD PASS IN FOOTBALL**

This season's football contests have demonstrated the possibilities of opening play through the use of the new famous forward pass. Under the old rules of the old football game, the rush line and over the heads of intervening players to the other Michigan half, who then had none of the enemy between himself and goal, being enabled to travel on down the field to the Pennsylvania goal for a touchdown.

Just here enter the intricacies. In the first place the rules require that before the ball can pass forward it must travel five yards behind the rush line of scrimmage. It is evident from the diagram that in passing from A to B and B to C the ball already traveled its necessary five yards. The rules also require that when the forward pass is made and the ball crosses the line of scrimmage it must pass five yards out from the center position where it originally stood when the play was inaugurated.

In the Michigan-Pennsylvania game the referee claimed when C snapped the ball to D, making the forward pass it traveled as indicated on this diagram, crossing the line of scrimmage less than five yards distant from the position of A, where the play started. The dotted perpendicular lines represent five-yard distances. Therefore the letter E marks the point five yards out from the position of A. Under the rules in making the forward pass C should have thrown the ball outside of the point marked by the letter E rather than inside. If this had been done the pass would have been fair and the goal would have counted. Michigan claims that in making this pass C was farther to the left than indicated by this diagram and that D was also farther to the left with the result that when the forward pass was made

standing. In fact in a prominent contest on Nov. 10th's battle between Michigan and Pennsylvania the use of the forward pass was the subject of the biggest dispute of the day and the fact that the referee could not allow the play as it took place robbed Michigan of that touchdown which would have tied the score.

This sketch shown above is illustrative of the play in the Michigan-Pennsylvania game which caused dispute and is also illustrative of the forward pass in question.

The head black horizontal line through the middle of the diagram represents the rush line of scrimmage. The Michigan team is lined up on the lower half of the diagram along this scrimmage line.

The letter A represents Michigan's center. The ball was snapped from A to B, B representing Michigan's quarterback. Willie A. was passing the ball to B. Michigan's half, represented by the letter D, broke through

the rush line and over the heads of intervening players to the other Michigan half, who then had none of the enemy between himself and goal, being enabled to travel on down the field to the Pennsylvania goal for a touchdown.

Just here enter the intricacies. In the first place the rules require that before the ball can pass forward it must travel five yards behind the rush line of scrimmage. It is evident from the diagram that in passing from A to B and B to C the ball already traveled its necessary five yards. The rules also require that when the forward pass is made and the ball crosses the line of scrimmage it must pass five yards out from the center position where it originally stood when the play was inaugurated.

In the Michigan-Pennsylvania game the referee claimed when C snapped the ball to D, making the forward pass it traveled as indicated on this diagram, crossing the line of scrimmage less than five yards distant from the position of A, where the play started. the ball already actually passed outside of the letter E.

The diagram and explanation is typical of all forward passes, although the use to which it was put in the Michigan-Pennsylvania game was entirely new. The forward pass is subject as is readily apparent, to hundreds of different methods of handling. It is the most spectacular and interesting addition ever made to gridiron combat despite the sarcastic suggestions by Pennsylvania's coach after the Michigan game that they referred to play "football rather than basketball."

BIG AUDIENCE FOR  
THE HOWE PICTURES

Historic Events of Yesterday in Many Remote Corners of the World Were Faithfully Reproduced.

For a period of over four years Lyman H. Howe's moving pictures have been semi-annual features of the theatrical season in Janesville.

The clientele of earnest people who find these reproductions of world events instructive as well as amusing has been steadily growing and the night nearly every seat in the playhouse was occupied. Each entertainment has seemed a little better than the last one and the offering last evening was no exception to the general rule. Not only did the life-like panoramas, themselves, represent the latest achievements and ingenuity in photographic art, but the melody of sounds and voices and music to accompany the scenes had also reached a high state of development. There were tears for little tragedy of the blind man and his faithful dog and scenes from spectators, as well as participants, when one of the racing machines turned turtle in the great Dieppe to Paris automobile race. The grandeur and sublimity of the wonderful Victoria extract on the Zambezi river, in Africa—over 200 feet higher than Niagara falls—the strange effects of the kaffir-tribe sunset on the waters—evoked involuntary exclamations of awe and wonder. There were other remarkable scenes from the dark continent—details of the diamond mining at Kimberley and the laying of the iron sleepers and rails of the Cape to Cairo railroad by 1,000 natives at the rate of a mile an hour. The great pageant which was a feature of the recent Elks' national convention at Philadelphia, with some of its aspects strangely familiar and reminiscent of the Nonsectarian Brothers' circus carnival at Janesville, the minute war maneuvers of the British marines, the setting up exercises at Annapolis, the yacht races at Cowes, the regatta of Wight, England—great scenes that rang of war and splendor and fair winds—the evolutions of the torpedo boats and torpedo boat destroyers, and the immensely humorous adventures of the trah that ran under the ocean and climbed great precipices with Mohisto at the throttle—were some of the important offerings. Each set of pictures thrown on the screen was applauded with enthusiasm and the interludes by the pianist were accorded the same recognition.

Should Silence Their Sneers. Chicago Record-Herald: The reactionaries who have been laboring so hard to get Roosevelt to declare once more that he is not a candidate for re-election, and who have been using his silence as a basis for sneering at allegations of bad faith, were bitterly disappointed last week when the President let it be known that he could not permit federal officeholders to go

to the republican national convention pledged to support him for re-election. That was just the kind of a practical answer to their sneers which they least desired.

### Spooner's Protest.

Chicago Junior Council. John C. Spooner's recent speech at the New York chamber of commerce dinner, which slightly unfair to the national administration, was in a whole statement unimpeachable and eloquent.

It was a frank and grave protest against wanton violation of the constitution, against the rashness of legislators which leap for whatever may be "clamored for as a reform," and against the ill-considered attempts to put the business of the whole country in a straight-jacket, to be tightened or loosened according to the personal notions of a bureaucrat at Washington.

In it we heard the voice of a man qualified for the task by native ability, special training, and experience; recalling the nation to a reconsideration of first principles in legislation and government, and tracing to their source the present distress of the nation.

## BRYAN DISCUSSES ROOSEVELT POLICY

SPEAKS AT BIG BANQUET IN HIS HONOR IN WASHINGTON.

### ENTHUSIASM IS GREAT

Nebraskan Analyzes What He Considers the President's Political Views—Also Addresses Organized Labor.

Washington, Nov. 27.—William J. Bryan was tendered a banquet and reception Tuesday night by "the United Democracy of the District of Columbia." Five hundred Democrats participated in the three-dollar dinner and more than double that number participated in the reception and feast of oratory which followed.

While the capacity of the Raleigh hotel banquet hall placed a limit on the attendance, the "id" was completely out as to enthusiasm, and the long speech of Mr. Bryan, like the half dozen shorter ones in his praise which preceded it, afforded opportunity for repeated and continued demonstrations of political accord and personal regard for the guest of honor.

Analyses Roosevelt's Policy. Mr. Bryan utilized the occasion to set forth at length a closely reasoned analysis between the policies of President Roosevelt and those he believes should be adopted in the administration of the government. From this viewpoint Mr. Bryan's speech was regarded by the prominent Democrats who heard it as a decidedly important and timely party deliverance.

Mr. Bryan's analysis of President Roosevelt's political views was unique. Four of the Roosevelt policies, he said, were democratic and four of them were undemocratic, while there were four other democratic principles which the president did not advocate. Railroad regulation, the enforcement of the laws against trusts, an income tax and arbitration as the method of settling disputes between labor and capital, were all advocated by the president, Mr. Bryan said, but had been advocated by the Democratic party long before the president took them up. As to none of them, he maintained, did the president have the support of Republican party leaders.

Doctrines the President Opposes. The four democratic doctrines the president will not endorse the speaker gave as tariff reform, the election of senators by direct vote, the promise of ultimate independence to the Philippines and the restriction of the use of the injunction in labor disputes.

The four undemocratic doctrines which the president does advocate Mr. Bryan named as being the national incorporation of railroads and other interstate commerce corporations, the right of the federal government to interfere by treaty with state rights, ship subsidies and asset currency. Added to this, Mr. Bryan said, the president has manifested a military spirit.

Also Talks to Organized Labor. Mr. Bryan and Samuel Gompers, of the American Federation of Labor, were the principal speakers at a great mass meeting of organized labor at Convention hall in this city Tuesday night. An audience of 7,000 persons greeted the speakers and thousands more could not gain admittance to the hall. Other speakers were John Hodge, a member of the English parliament; President James O'Connell, of the International Association of Machinists, and W. H. Trotter of the typographical union of Manitoba, Canada.

A parade, consisting of the union labor organizations in the District of Columbia to the number of 15,000 persons, preceded the mass meeting. The object of the parade and the mass meeting was to demonstrate the strength of organized labor here.

All Predict Bryan's Nomination. Mr. Bryan's nomination was predicted by each of the other speakers and each time the prediction was repeated it brought forth instantaneous response. Mr. Hodge, of New York, pictured Mr. Bryan as the idol of New York Democrats and Representative Saker, of that city, added his testimony to the same effect. Representative James, of Kentucky, declared the nomination of the Nebraska settler, and John Sharp Williams, of Mississippi, gave his unqualified endorsement to the same effect.

Senate Declares Des Plaines and Illinois Rivers Navigable.

Springfield, Ill., Nov. 27.—Deep waterway work went up Tuesday when the senate started on its way to the governor's office. Deneen asking them to pass it with an emergency clause complied by giving the measure 41 yeas, only two negatives being recorded. The bill has been passed by the house and now goes to the executive for his signature.

This is first blood for Gov. Deneen in his fight to oust the Economy Light and Power company from rights it claims in the Des Plaines river where the concern is constructing a dam at Dresden Heights. ### 'FRISCO CASHIER MISSING.

Shortage in Accounts of an Insurance Company Employee.

San Francisco, Nov. 27.—Fred S. Butler, Sr., cashier of the Hanover Insurance company, is missing and an investigation has already revealed a shortage in his accounts amounting to \$1,200. Judge Cabaniss Tuesday issued a warrant for his arrest on the charge of embezzlement, sworn to by Caesar Norton, manager of the business.

A short time ago Butler, who has been connected with the concern for a number of years, went on a vacation and some suspicion was excited by discrepancies in his books. An investigation was started which revealed pecuniary extending over a considerable period.

### THREE MEN ASSASSINATED.

Killed by Unknown Person as They Step from a Train.

Cllo, Ark., Nov. 27.—Three men were assassinated as they stepped from a train here Monday night. The assassin is unknown. The dead are: Thomas R. Godfrey, a Pine Bluff lumberman; Clarence L. Bush, a telegraph operator, and A. R. McElwin, a singing teacher from Grant county, who was a bystander. After being shot, Bush ran up the railroad track and although known to have been mortally wounded, his body has not been found.

### Blow for Anti-Pool Selling Law.

St. Louis, Nov. 27.—A decision was rendered by Circuit Judge George H. Williams Tuesday that practically renders void the new anti-pool selling law enacted by the last legislature at Gov. Folk's request and opens up the way in St. Louis for a resumption of handbook bets on racing. In freeing Frank O'Haver, a barber, of the charge of pool selling, Judge Williams ruled that, to prove the offense charged, it must be shown that the race on which O'Haver placed a bet was actually run, and that the horse on which the money was placed ran.

### Mine Official Buried by Cave-In.

Goldfield, Nev., Nov. 27.—William Goodrich, superintendent of the Scully lease on the Sandstorm, was buried under 25 feet of rock in the working shaft of the lease. The cave-in occurred into Tuesday afternoon and word was dispatched to Goldfield for aid and a number of men immediately volunteered to assist in the rescue. Timbers and windlasses were loaded on a wagon and the rescuers went to work with little hope of reaching Goodrich alive.

Felton Goes to Mexican Central. Chicago, Nov. 27.—Samuel M. Felton resigned Tuesday as president and director of the Chicago & Alton and was elected president of the Mexican Central. This paves the way for the amalgamation of the Alton, Iowa Central and the Clover Leaf systems, which are owned by the same interests. It also indicates clearly that E. H. Harriman has become the dominating factor in the Mexican Central.

### Ticket Scalpers Enjoined.

Omaha, Neb., Nov. 27.—On application of all the railroads doing business in Omaha, a permanent injunction was issued Tuesday by Judge W. H. Munger against ticket scalpers who have sold contract tickets at reduced rates.

Read What He Says About Gray Hair

Gray hair is simply faded hair. Hair "turns" gray simply because the blood of the scalp fails to supply the roots of the hair with the natural secretions that give it color. If your hair is gray—don't dye it! Color obtained by the use of dyes are but temporary, and are immediately detected. They don't look natural. My preparation labeled:
